

ADVANCED QUALITY FROM THE AFTERMARKET LEADER

30+ YEARS OF **DEVELOPMENT & MANUFACTURING EXPERTISE**

THE ULTIMATE QUALITY

Static Control has been in the imaging industry since its very start.

- Founded in 1987, Static Control has developed and manufactured components within laser/toner and ink jet cartridges for more than three decades
- If you have ever used a high quality aftermarket cartridge, it likely contained Static Control technology
- We are the global leader in reverse engineering highly encrypted chip solutions
- With our specialised, in-depth knowledge, Static Control offers the industry's most reliable, premium cartridge solutions

Simply put, no one knows the inner workings of a cartridge better than Static Control.

We have the highest standards in the industry so our products offer a level of quality that is unmatched in the aftermarket.

- Our state-of-the-art print lab is 30,000 square feet and conducts hundreds of tests in multiple environments to ensure superior performance in all climates
- Our development team researches all the OEMs and has a deep understanding of how each cartridge works and performs
- We wrote the book on how to measure quality; our TargetPro testing software is still an industry standard for cartridge testing
- Comparative testing of both OEM and other aftermarket offerings ensure we set performance standards that meet or exceed our customers' expectations

RoHS

STATIC CONTROL'S CARTRIDGE LINE OFFERS SOLUTIONS FOR ALL MAJOR OEMS

REMANUFACTURED

Static Control's remanufactured cartridges deliver reliability and high quality performance. Built using our 30 plus years of knowledge, no one knows cartridges like Static Control.

COMPATIBLE

We have the best compatible cartridges in the industry thanks to our unmatched quality control! Maximise your profits with our first-to-market solutions, built with Static Control technology inside each cartridge.

EXTENDED YIELD

Our unique offering of extended yield cartridges can save you money by providing a lower cost-per-page. This is a great solution for your MPS environment.

INK JET CARTRIDGES

Our ink jet cartridge line provides rich, colorful prints from start-to-finish. Each cartridge offers accurate page count numbers and is powered by Static Control's chip technology.

AllPage TECHNOLOGY

by Static Control

ECI FMAudit® users, rejoice! Static Control offers an exclusive opportunity with our AllPage Technology, a cartridge that accurately reports the number of pages remaining in an extended yield cartridge.

Stop replacing toner cartridges too soon with AllPage.

Get what you paid for!

Cut Toner Waste to Maximize Your MPS Profitability
with AllPage Technology.

Maximizing MPS Profitability

Improve Your Margins

- Capture entire cartridge value
- Minimise freight

Support Greater Efficiency

- Reduce downtime
- Improve productivity

Optimise Inventory

- Support your just-in-time delivery
- Decrease need for excess stock

LOGO LABEL

Our labels can be customised to highlight
your business name and logo.

BESPOKE PACKAGING

Static Control offers custom boxes designed specifically
for your business.

DISTRIBUTION MAP

Static Control is a global company with offices and distribution centers located around the world.

Our team has one global mission - to provide quality service while designing, producing and distributing premium imaging solutions to communities around the world.
